

PRODUCT DETAILS

|                  |                                                                 |
|------------------|-----------------------------------------------------------------|
| Product Code     | 1230-M                                                          |
| Construction     | Engineered Tongue and Groove                                    |
| Pattern          | Single Strip Plank                                              |
| Top Layer Specie | European oak                                                    |
| Total Thickness  | 15mm                                                            |
| Finish           | Hand-finished and fully protected with 4 layers of hard wax oil |
| Grade            | Character, Nature, Select                                       |
| Edge Profile     | Micro-bebelled on two long sides only                           |

STONINGTON LIGHT GREY

TECHNICAL CRITERIA

|                      |                                                                                        |
|----------------------|----------------------------------------------------------------------------------------|
| Wear Layer Thickness | 4mm European oak                                                                       |
| Backing              | WBP European birch cross layer plywood                                                 |
| Width                | 180 mm; 220 mm; 240 mm                                                                 |
| Length               | Random lengths boards 40% between 600mm and 1990mm, and 60% between 2000mm and 2800mm. |
| Pack Size            | Made to order                                                                          |

INSTALLATION METHODS

|                   |                                                      |
|-------------------|------------------------------------------------------|
| Connection System | Tongue & groove                                      |
| UFH Suitability   | Tested and compatible with underfloor heating system |

IMPORTANT INSTALLATION GUIDANCE

Installation is taken as acceptance of the goods and must be carried out by a competent installer in accordance with the relevant national standard. Inspect all goods before fitting.

Do not cover a newly installed floor with non-breathable material. Trapped moisture can damage the surface, especially over underfloor heating.
